

# MD. SHAKIL HOSSAIN

## MERN Stack Developer

Tangail, Bangladesh

✉ [mrshakilhossain@outlook.com](mailto:mrshakilhossain@outlook.com) | [Github](#) | [LinkedIn](#) | [Portfolio](#) | ☎ +8801620521215

### OBJECTIVES

Energetic MERN enthusiast skilled in crafting responsive web solutions. With a proactive problem-solving approach, I bring innovation and seamless collaboration to dynamic development teams. Ready to contribute a fresh perspective and technical acumen to drive project success.

### SKILLS

**Front-End:** React, Tailwind, Daisy UI, Bootstrap, CSS, HTML.

**Back-End:** JavaScript, MongoDB, Rest API, Express JS, Stripe.

**Authentication:** Firebase, JWT.

**Tools:** VS Code, GitHub, Figma, Vercel.

**Language:** Bangla (Native), English (Fluent).

### PROJECTS

**1.City Scape**      Real State Platform      [🔗 Active Site](#)   [🔗 Client](#)   [🔗 Server](#)

**Features:**

**Duration:** 5 Days.

- City Scape: MERN-based real estate platform for buying and selling properties online.
- User-friendly roles: create accounts, buy, and review for users; manage listings and sell for agents; admin oversight.
- Emphasis on security and transparency, with a responsive design for efficient property management.

**Uses Technologies:** React, Tailwind, Express JS, MongoDB, JWT, Firebase, Stripe, Cors.

**2.Excess Eats**      Community Food Sharing Platform      [🔗 Active Site](#)   [🔗 Client](#)   [🔗 Server](#)

**Features:**

**Duration:** 4 Days.

- Discover and Request: Effortlessly find and request food from listings tailored to your needs.
- Share Surplus: Easily post listings to share extra food with others in your community.
- Instant Connections: Communicate seamlessly through instant messaging to arrange pick-ups, ask questions, and manage your food-sharing activities.

**Uses Technologies:** React, Tailwind, Express JS, MongoDB, Firebase.

**3.Brand Shop**      Brand Based Online Platform      [🔗 Active Site](#)   [🔗 Client](#)   [🔗 Server](#)

**Features:**

**Duration:** 3 Days.

- Brand-Focused Shop: Explore categories like Technology for a personalized experience.
- Easy Shopping: User-friendly features, including registration and a convenient shopping cart.
- Any Device Access: Responsive design for a seamless experience on desktop and mobile.

**Uses Technologies:** React, Tailwind, Express JS, MongoDB, Firebase.

### EDUCATION

Bachelor of Computer Science & Engineering | National University | 2018-2023 | CGPA- 3.28
